

Ninth Year, No. 11

GLEICHEN, ALBERTA, THURSDAY, JUNE 3, 1915

Per Year \$1.50

"Let 'Er Buck" is now the popular expression of the Gleichen and district people, and the familiar saying of "we should worry" has been banished to the scrap heap of obsolete sayings for the time. Everyone is working hard for the success of this year's Stampede and indications at the present writing are very promising. Gleichen was placed on the map last year for its colossal success in pulling off its first Stampede and this year will bring before the people of the North American Continent even more distinctly than did last year.

Scouts are already reporting success in their search for outlaw horses that can buck high, wide and handsome and riders are practicing diligently to capture one or

A SQUARE DEAL FOR CONTESTANTS

Bob Willson, of Markerville, in a private letter to his brother-in-law, Jack McDowell, says:

"Having seen the Calgary Stampede from start to finish and being a winner of four prizes at the Winnipeg Stampede in 1913 as well as a winner of five prizes at the Gleichen Stampede in 1914, I am of the opinion that any contestant will receive a square deal at Gleichen this year, also a home-like reception. Bob Willson.

more of the big cash prizes offered for riding, roping and cowboy stunts in general.

The famous string of bucking horses owned by A.P. Day of Medicine Hat, have already arrived in Gleichen, and from now on will undergo a course of feeding and care which will tend to make them would-be-riders hunt hard for the elusive saddle horse when once they mount the hurricane deal of one of these bronks. This string of horses is known all over the Dominion as the best bunch of wild and woolly and hard to tame outlaws that have

been seen in one corral. Mr. Day has made it his business or several years to travel wherever he heard of a horse that had won a reputation as a "bad one" and has expended large sums to procure the animals that had the rep. Even last year, at the Stampede, there was not one horse that came from the A. P. Day corral that did not put up an exhibition of pure devilment and downright ugliness and many a good rider found himself "piled" in the effort to "stay with 'em." Many a good offer has been tendered to Mr. Day for some of his pets, but to no avail. He wants the best of the bad ones and he sure has them.

Another notorious bunch of buckers will be here from the Double L ranch, owned by A. Bond. Among them is the outlaw known as "Ray" who was in the finals here last year. Last Sunday he proved he was still there with the goods by piling one of the best riders in this district in proper style. From this ranch also will come "Salomia" who made a rep here last year and "Tanglefoot," a young horse of great and promising ability. Added to the bad ones already mentioned will be all the outlaws from the many ranches in the west, the pride of their owners and cowboys of the different outfits.

Famous riders and ropers from all over the continent have already expressed their intention of trying for the big purses and whoever wins in this year's contest will be a good one indeed.

Arrangements have been made with the big ranch-

COCHRANE FAVORS GLEICHEN STAMPEDE

D. P. McDonald, the well-known Cochrane rancher writes Jas. Young, the Stampede manager, that at a meeting held in Cochrane it was decided to hold the Cochrane race meeting one day earlier than first proposed in order to participate in the Gleichen Stampede. He also adds that Clem. Gardner approves of the change as it will give a good opportunity to take in the Cochrane and Gleichen celebrations. The Cochrane race meeting will now be held on Tuesday, June 22nd and no doubt Gleichen will be well represented.

ers whereby the wildest bunch of steers ever corralled in Gleichen or elsewhere will be gathered up and brought in to be roped and ridden. Big four-year-olds that have never had a rope on them except to be branded when they were calves and which have seldom if ever seen a man a-foot, they will be ready and willing to fight at the drop of the hat. Taken all-together the plans at the present time are such as to prove even more successful than last year and there are still three weeks to complete further plans to thrill the spectators who journey to Gleichen for the Second Annual Stampede, June 24th and 25th, 1915.

"Meet me at the Gleichen Stampede" is the Dominion wide slogan, and hotel accommodation is being booked from all over Canada and the Western States at this early date. The secretary, W. H. McKie, receives enquiries every day from the noted riders and ropers, and this indicates the great interest being taken in all parts of the country.

Straight From a Canadian Soldier

Here is a letter that should touch the heart of every true Canadian. It was sent on to L. A. Hicks by his brother-in-law at Reddick, who read it to the C.M.A. man and by request turned it over for publication in its entirety. Gordon expresses it to a nobody when he says: "Albert, this letter seems so real."

France, May 11th, 1915. I have not received any word from you for a long time, I suppose you are too busy to do much writing. I suppose you will have given me up for dead by this time, but I am very much alive. We are back in France again for a few days rest and to get re-organized and I suppose it is all right after them again.

A Farewell Smoker

Last Thursday evening a "smoke-out" was tendered to Messrs. H. G. Lyons, manager of the Royal Bank of Canada and E. E. W. Rhodes, accountant of the Canadian Bank of Commerce, arrived in Gleichen in January 1913 and had grand honours and bullets to their credit during their stay of more than two years made many friends and a great deal of money. Mr. Lyons has been transferred as manager to the branch at Peace River Crossing and left Sunday to assume his new command. Mr. Rhodes left on Friday for Medicine Hat to assume a similar position. Rev. J. K. Jensen and wife of Arval, a girl at their home on Sunday, May 30th.

OUR FIRST COW

By John Giambeck.

In looking back over the many trials and troubles that befell us the first years on the homestead the first cow stands out very prominently.

She was not a bad looking cow, red of color and of medium size, she should properly have been classed a beef rather than a milch cow. Like her former masters, the ranchmen she never did take very kindly to housemasters.

My brother-in-law who preceded us a year, was instructed to buy a cow and have her in working order by the time we arrived and so he did. Cows were then much cheaper than now and for \$35 he bought a cow and a week old calf from a rancher, but as the calf promptly died the first while at my brother-in-law's place he plays no part in this history.

The trouble started when I tried to get the cow to my own place six miles away. I tied her behind a wagon a proceeding to which she most seriously objected. After going a half mile or so the cow decided she would go no further, she laid down, bawled, kicked and jumped in all directions at once. I by a quarter of an inch. This did not exactly knock it out of me but it was a little bit of a shock. I did not get up to help me and she had no one to help me and she had to get home somehow. So I hit the cow, she went down on her decided the cow had to come and it became a tug of war between the cow and the horse. Sometimes the cow was gaining and sometimes the horse but the horse finally won out. It was a hard looking cow when we got home and she was very dirty. I had to wash her and she was very dirty. I had to wash her and she was very dirty.

for a cow, the nearest place to be somewhere up north of Gleichen. We finally decided to go to the cow to see what she was like. The wagon and when she had eaten the grass off one place we moved through with that animal all summer. The real reason was that she was not a bad looking cow and I often wonder how we got her. The real reason was that she was not a bad looking cow and I often wonder how we got her.

One day when I was out with the cow of the neighbors for butchering and a long ladder but one day when she made very fine beef. Since my wife happened to look out of the window she saw the cow, ladder and all galloping across a hill two miles south going toward her ranch house. Well, that sent another trip with the wagon but he is

all right to the credit of that cow that she travelled a little more willingly the second time. After that we tied the cow to the shack where we had to use the wagon and she could not pull that long.

One day later in the summer, when we had well drilled on the place, the cow got a bit of homesickness and broke loose from her moorings. One of the well drilled men myself started after the run a way on horse back. About four miles out we surrounded her and she succeeded in driving her back on it and should occasion demand it will be used by our own boys. The cost of each such job is \$50 and our ladies hope to supply at least one bed for the purpose. It is a worthy object to work for and it is a good reason why we attend their efforts.

The second day's receipts will go to purchase supplies for the hospital and the Red Cross. The only person who has been able to supply the hospital is the Red Cross. The only person who has been able to supply the hospital is the Red Cross. The only person who has been able to supply the hospital is the Red Cross.

ugly spalls. As it happened to a bad summer with flies and mosquitos it was a job to milk the cow and I often wonder how we got her. The real reason was that she was not a bad looking cow and I often wonder how we got her. The real reason was that she was not a bad looking cow and I often wonder how we got her.

Red Cross Notes

The ladies of the local Red Cross Society have decided to hold a tag day both dates of the stampede. The first day's receipts will be used for the purpose of supplying a "Gleichen Bell" in the Canadian Hospital at Cliveden, England, for our brave boys at the front. Each day's receipts will be used for the purpose of supplying a "Gleichen Bell" in the Canadian Hospital at Cliveden, England, for our brave boys at the front. Each day's receipts will be used for the purpose of supplying a "Gleichen Bell" in the Canadian Hospital at Cliveden, England, for our brave boys at the front.

Although little has been lately about the work of our Red Cross Society, they have been quietly working away and on Tuesday, June 1st they made up two large cases of articles so badly needed at the front and sent them to the Red Cross Headquarters at Calgary. The cash collected on sock day amounted to \$23.70 which was expended for socks among the boys at the front and for wool hosiery with it being made.

Stampede Preliminaries Gleichen Relief Corps Financial Statement

A. Bond's Ranch, in the Buffalo Hills, south of Gleichen was the gathering point of many motorists, pleasure seekers and cowboys last Sunday when word leaked out that the riders of the Double L ranch would take a little "practice riding" in anticipation of entering for the Stampede. The bronks were willing to try to take a fall out of the boys and the boys were willing to take the fall if necessary and the combination of two such willing spirits produced some first-class bucking and riding. Bond's ranch is the home of some notorious outlaw horses, among them being the famous "Ray" who put up such a wicked fight at last Stampede.

With spring here and the best possible prospects of a bountiful harvest giving work and hope to all able-bodied people who seek it, we have closed our doors until the fall and we trust by that time fortune will smile upon the world again.

Experimental Farm Report

Chronicles a Vast Amount of Work For Benefit of the Farmers

The work and scope of the Experimental Farms and Stations have developed to such an extent that it has been found necessary for the sake of convenience to devote two volumes of nearly five hundred pages each to the main or aggregate report for the year ending March 31, 1914. In the first volume is presented the reports of the director and the divisions of chemistry, field husbandry and animal husbandry. It is by a study of these chronicles that an idea can be obtained of the vast amount of work that is being done and an appreciation arrived at of a resultant good.

In the first few pages are given the usual comparative tables of grain yields and prices and of live stock for the five years extending from 1908 to 1913, each of which, excepting horses and swine, show a decrease in the western provinces, since 1910. In the western provinces there was a deficiency of upwards of 300,000 cattle between the same year and 1913, but an increase of nearly half a million horses and only a slight disparity in sheep, which, however, are showing a tendency to improvement. Swine increased by upwards of 500,000. In British Columbia the numerical changes were comparatively slight. Naturally much space is given to reports of experiments at the different farms and stations. These experiments, it is hardly necessary to say, cover every variety of grain, fruit and vegetable production, as well as soil development, crop management, cultivation of forage plants and grasses, live stock breeding and dairying. It will be impossible to over-estimate the importance of the information thus furnished.

Of course at this time when the value of increase by improvement of production is being strenuously urged the reports are of special interest. It is not alone with what may be termed activities of the farm proper that they deal, but also with building, with clearing, with road-making, with ornamental gardening. In short, the reports constitute virtually an encyclopedia of farming and its branches brought up to date.

While, as has been said, Volume I is devoted to the review by the director and reports of the divisions of chemistry, field husbandry and animal husbandry, Volume II presents the reports of the divisions of horticulture, cereals, botany, entomology, forage plants, poultry and tobacco. All that has been said of the completeness in its contents of the first volume can be repeated of the second. It, too, is a useful compilation and a sample in detail of the benefits to be derived from scientific and painstaking research.

As in the preceding years, the matters dealt with in this volume are divided into sections. (a) Giving precise information of the work at the Experimental Farms in the division referred to, and (b) Treating of the various lines of experimental work under way throughout the system. It is explained that the latter section is devised and designed with a view to aiding the farmer more directly in the details of his vocation. It is worthy of wide attention, for the thing certain is that the nature of the reports makes them deserving of the closest attention. Copies may be obtained by making application to the Publications Branch, Department of Agriculture, Ottawa.

Minard's Liniment Relieves Neuralgia.

Reporting from Memory

Surprising Gift of a Journalist Who Could Report Debates From Memory

Holcroft's feat in memorizing the whole play of "Figaro" after hearing it ten times, could probably have been easily outdone by "Memory" Woodfall, who for the last six years when not taking his forbidden leave in the house of commons, acquired fame by his extraordinary power of reporting from memory the speeches he heard in that august assembly.

His usual attitude during a debate, was to close his eyes and lean forward with both hands upon his stick, being so well acquainted with the tone and manner of the several speakers that he seldom changed his attitude save to catch the name of a new member.

The speeches thus memorized he printed in his journal, and so wonderful was his memory that he could retain full recollection of a debate a fortnight after, though having listened to many long nights of speaking in the intervals. He used to say he could put any speech away on a corner shelf of his mind for future reference.—London Chronicle.

Potatoes and Hay

A great scarcity of potatoes and hay exists in a number of western districts, and the railway companies have granted special low rates on these commodities. The Wilton Produce Co., Confederation Life Building, Winnipeg, have 300 carloads New Brunswick and Ontario potatoes, both for seed and consumption, and 200 cars baled hay for immediate shipment. They offer to finance government and municipal relief orders.

Two doctors met one day, and one said to the other: "I hear you operated on Smith yesterday. What did you do that for?"

"Why, for a thousand dollars." "Yes, I know," replied the other; "but what did you operate for?" "Why—with some impatience—for a thousand dollars."

"Yes, yes, I know; but what I mean is, what did Smith have?" "Why, I've told you twice already—a thousand dollars."

Boreleigh—Some men, you know, are born great, some achieve greatness—
Miss Keene—Exactly. And some just grate upon you.

The increasing industrial use of wood alcohol has created conditions of carelessness in the handling of it. Wood alcohol is an active poison, and all bottles, cans or other containers of this liquid should be plainly and conspicuously marked "Poison."

Prairie Lodge 44

Meets Every Monday Evening at 8 in the Larkin Hall

Visiting brethren cordially invited.

R. A. Brown, Noble Grand
Peter MacLean, Secretary.

GOLDEN JUBILEE LODGE
No. 55

KNIGHTS OF PYTHIAS

—meet—
Every Thursday, at 8 P.M.,
—in—
GLEICHEN CASTLE HALL

R. E. Holland, F. W. Jones,
C.C. K of Rand 8.

T. H. Beach Auctioneer

Sales Conducted any place in the Province

For terms enquire at Gleichen Harrow
store. Office phone 3, residence phone 2.
GLEICHEN, ALTA.

DENTIST

C. R. MCINTYRE

L.D.S., D.D.S.
Graduate Royal College Dental Surgeons, Toronto.

Dentistry Practiced in all its Branches. Gas Administered

Office in Royal Bank Block
GLEICHEN

HARDWICK BROS

P.O. Box 186, GLEICHEN
Range, Snake Valley

Owners of all cattle branded:

Left 499 Right
Horse-branded: D right side

M. Mecklenburg

Exclusive Eye Expert
With Gleichen Pharmacy, Monthly

Calgary office, King George Hotel
Edmonton office, 302 Jasper Ave.

All persons are hereby warned against buying any grain, hay or other produce, cattle, horses, wagons, harness, mules, mowers or rakes from any Indian of the Blackfoot reserve without an officially printed permit issued by the Indian Agent.

Also not to take in pledge or make any loan upon any article to any Indian under penalty of having any such article seized and being prosecuted for illegal pawning.
J. H. GOODERHAM,
194 Indian Agent

A REPRESENTATIVE OF
THE TAUBE OPTICAL CO.
700 First St. W., Calgary

WILL VISIT GLEICHEN
EVERY TWO MONTHS
For Dates enquire at Yates Drug Store

Every dollar you send out of town flies away with a value that rightfully belongs to your community. Spend it at home, with your home or chest, where its value stays with you and helps to build up your interests. When you come to think of it, there are only two kinds of dollars—the "Dollar with Wings" and the "Development Dollar." The "Dollar with Wings" goes to build up the Far West City, the Big Metropolis. The "Development Dollar" goes to build up the home town. It helps build up a nation of real men and women. Then, let us make the dollars we spend "Development Dollars." Some-one, building for us and our neighbors and our children, making our community more prosperous, more happy, more contented.

FRIENDLY RIVALS

"Made-in-Canada" and "Made-in-America"—Buying at Home

The Boston "Herald" of February 15th has the following statement, under the heading "Made-in-Canada," in its editorial column:

"The answer of Canada to the 'Made-in-America' movement in this country is a 'Made-in-Canada' movement and Canada Trade at Toronto sends down word that it is in a healthy stage of growth. The patriotic sentiment of the times gives it an impetus, and as the current instigator, our manufacturers and exporters will have to put on a little extra steam to meet the new competition. When the war broke out last August 'Made-in-Canada' signs blossomed like magic in the store windows of London, Liverpool and other English cities. It was the patriotic defiance to the familiar 'Made-in-Germany' stamp which was the first of the kind to become familiar to the world over."

The fact that the papers of United States and American Consuls are reporting on the effect of the "Made-in-Canada" campaign is the best evidence possible that the "Buyings-in-Home" movement is making headway and is carrying the people with it. Americans are shrewd people commercially, and not so slow to organize a huge "Made-in-America" publicity campaign as soon as the war broke, shutting off, as it did, a large part of the food of imported goods which people of United States have been accustomed to purchase. If "Made-in-America" is good for United States, "Made-in-Canada" is even better for Canada, a smaller country which is only in the early stages of its industrial development, and in which the problems of unemployment and reduced buying capacity as a result of the war are difficult to handle.

"No use, my friend, the current's too strong for you."

BROWN'S TRANSFER

Buy an Irrigated Farm From The CANADIAN PACIFIC RAILWAY BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$25 to \$75 per acre, with twenty years to pay and the privilege of a loan of \$2,000.00 for improvements (0% interest); no principal payment at end of first or second year and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record. Get full particulars from

Clinton N. Howard Temperance Orator Will Speak To-night

The famous American orator, Clinton N. Howard, will be in Gleichen today—Thursday—June 3rd, and will speak in the Opera House at 8 p. m. in the interests of "Prohibition for Alberta."

Mr. Howard is known throughout the United States as "The Little Giant of the American Temperance Platform."

It is not often that a town the size of Gleichen is favored with a visit from so able a speaker as Mr. Howard and anyone who does not hear him will miss a rare treat.

An invitation has been extended to the liquor interests to send a representative to speak on their behalf.—ad.

Gleichen Train Arrivals

The new C.P.R. time table takes effect next Sunday, May 30th, and the arrivals at Gleichen are as follows:

Train No. 13—west bound—	2.02
" 515—west bound—	8.45
" 3—west bound—	13.55
" 14—east bound—	24.08
" 4—east bound—	15.50
" 516—east bound—	21.09

Stallions For Sale

I am instructed to sell by private bargain the registered standard bred stallions

"HAPPY REGIS" and
"GUS REX"

full brothers. These stallions weight around 1225 and 1300 pounds each and have the best of blood in them being sired by Ramona 21784 and he by Judge Salisbury 5872 and he by Luckwood. Ramona's dam Norma Sprague was by Governor Sprague.

These stallions dam Myrtle Garland was sired by Lisbon 10040 and grand dam Kate Lightfoot by Bellfound No 62.

These sires and dams are the progenitors of nearly all the fasted horses in America today.

Note: These to stallions will be sold at a reasonable price and on part payment if required

For further particulars wire, phone or write,

J. W. DURNO

532 17 Ave W, Calgary. Phone W4185

Alberta Estray Law

The Alberta Estray Law prescribes that the party who takes up an estray animal must immediately notify the brand reader nearest to his place to come out and examine the animal and take a copy of the brand, if any, on the animal. Then an advertisement must be inserted in the nearest local paper and also in the Alberta Gazette, and until the law is complied with the holder of an astray cannot collect any fee for his trouble or feed. Prompt action must be taken, the law being very strict in this matter. The brand readers are entitled to a fee of two dollars for each animal they examine and mileage to the amount of 10c per mile, not to exceed 30 miles. The cost of the advertising and the reading of the brands is a charge against the estray animal and must be paid when the animal is claimed. The party holding the animal is responsible for all charges until it is sold or redeemed by the owner. No charges for feed are allowed between the 15th day of April and the 15th day of November. From November 15 to April 15 a fee of 10c per head per day is allowed for horses and cattle during the day on which the notice is mailed to the owner of the estray animal or to the Alberta Gazette, but not exceeding the sum of nine dollars. South of the 26th township only five cents a day is allowed for feed and the total cost is limited to three dollars.

DR. DEVAN'S FEMALE PILLS Reliable medicine for all Female Complaints. 25¢ a box or three for \$1.00, at drug stores. Mailed to any address on receipt of price. THE SCOTT'S DRUG CO., St. Catharines, Ontario.

How Milk Should Be Handled

(Published by request.)

As warm weather is coming on a few words of advice as to the proper method of handling milk during this period might be appreciated by milk consumers, especially those without ice.

In the event of one's wishing to be sure of neutralizing the indigestible ingredients and killing all germs, milk may be pasteurized at home by a simple method. This is most conveniently accomplished by using the bottle in which it is delivered.

To do this one requires a pail with an inverted pie tin, with a few holes punched in, set in the pail for the purpose of raising the bottle from the bottom of the pail.

Punch a hole in the top of the bottle and insert a thermometer. The ordinary type is likely to be inaccurate so it is well to procure a good one, with the scale etched on the glass. Set the bottle in the pail and fill the pail with water nearly to the top of the bottle. Put the pail on the stove and heat until the thermometer in the milk shows not less than 150 degrees Fahrenheit. The bottle should then be removed from the water and allowed to stand twenty or thirty minutes. The temperature will fall slowly but may be held more uniformly by covering the pail with a towel. The punctured cap should be replaced with a new one or the bottle covered with an inverted cup.

After the milk has been cooled as directed it should be further cooled as quickly as possible by setting the bottle in colder water. To avoid breaking the bottle by too sudden change of temperature, the warm may be replaced by slowly adding cold.

After cooling, the milk should be held at the lowest possible temperature to prevent souring and should be used within 24 hours.

Always keep milk in a compartment by itself, if possible, and always covered, whether in a refrigerator or elsewhere.

WM. WALSH.

A. M. Terrill is offering flowers all ready for the garden. Read his ad.

Mrs. Farrow left on Sunday for an extended visit to her former home in the States.

H. A. Warnock, the well known electrical expert, was more than electrified Monday morning, May 31st, when Mrs. Warnock presented him with a cute little baby girl.

Capt. Bennett of the 103rd, Calgary was in Gleichen Tuesday inspecting the cadets at the school. The young soldiers were all put through the various drills and maneuvers and gave a good account of themselves.

Last week H. A. Warnock installed an electric "call bell" at the Cluny ferry on the Bow river. This will prove a great benefit to all travellers and the popular ferryman at night. Now you midnight auto sports just touch the button, it will save lung power, swimming etc., etc.

Among the names of those reported wounded from the Princess Pats is the name of Lance Corp. G. R. Fox of Dublin. This name is familiar to many Gleichenites as Mr. Fox was a resident of this district for sometime before war broke out and joined the famous regiment at Calgary, being among the first to offer his services. He was in the employ of F. A. Williams in August of last year and threw up his job to follow the flag. This is the first Gleichen volunteer to have his name on the casualty list so far as we have heard.

A NEW IMPETUS

United States Firms Looking to Canada For Branch Factories Again

During the past couple of years the movement of American industries to Canada and the establishment of branch factories in the Dominion slackened off to some extent, as compared to the rapid progress that was made in the building up of United States industries in Canada in 1910, 1911 and 1912. Now the movement is being accelerated again, and, according to the Boston "Daily Trade Record" of March 26th, the "Made-in-Canada" campaign is responsible.

After referring to the fact that the "Made-in-Canada" campaign is taking business from American firms, which are now compelled to plan branches in the Dominion, the Record quoted Mr. G. W. Curtis, agent of the Canadian Pacific Railway, who has just made a trip to the United States, and reports that the "Made-in-Canada" movement had caused a considerable falling off in the business which the United States had hitherto done in Canada. The new war tariff of 7 1/2 per cent. also served to keep out American goods.

As a result of these two factors, Mr. Curtis has received many inquiries from American manufacturers who are planning to establish branch factories in Canada so that they may benefit by the "Made-in-Canada" movement, instead of losing by it as is now the case with their factories on the United States side of the line.

This unsolicited testimony from United States to the effectiveness of the "Made-in-Canada" movement, which has swept over the Dominion during the past few months, affords abundant evidence of the value of the publicity methods adopted. That the "Made-in-Canada" movement will gather strength in the next few months if it is going to result in an increase in the number of industries in Canada will be the wish of all those who have a knowledge of the unemployment situation in the Dominion. Not only will new branches of American factories in Canada increase employment for Canadian mechanics, but the building and equipment of these factories will tend to revive building trade and create activity in many industries subsidiary to the building trades.
